The interest-only payout rate can fluctuate anytime but cannot fall below the guaranteed settlement rate stated in the contract. Rates can go down and are subject to minimum guarantees.</p> <p>Current interest rates on most annuities are guaranteed for one contract year. The rates are declared periodically by the Product Management Committee as financial market conditions change. Therefore, current interest rates on our annuity products will only be quoted in this flyer to eliminate costly revision and reprinting when rates do change. Interest credited on money during the payout period may be lower than the rate credited during accumulation.</p> <p>Special note: Initial interest rates credited to new contracts are declared monthly, and are effective with contracts issued on and after the first Tuesday of each month. The rate credited to contracts previously issued remains unchanged for its full guarantee period, but the rate credited to new contracts is subject to change prior to issue without prior notice.</p>
